### **SUPPORT FOR NORTH ZUMBRO SANITARY DISTRICT FUNDING**

Right now, state and federal representatives are going to decide on bonding bills and how to distribute funding for local projects. We have been to state capital to meet with state representatives to stress the importance of Goodhue/Wanamingo/Pine Island/Zumbrota project to be on their list for money. This funding will significantly reduce the burden on residence for this much needed construction of this joint sewer project. To read more about this project, visit [www.northzumbro.com](http://www.northzumbro.com) for more information. Call your representative!

### **GOLF CART PERMITS**

Weather is getting warmer - time to renew your golf cart permit. Permits can be found on our website. Permits are good only for the year they are issued. Questions? You can refer to our Golf Cart Ordinance.

### **FLUSHABLE WIPES... OR NOT (REMINDER)**

Wipes are not designed to break down in sewer systems or treatment plants and can gum up the system. Several studies over the past several years have provided evidence to suggest that wipes branded as “flushable” are clogging wastewater systems. It is estimated that disposable wipes make up 90% of these massive clogs. Goodhue is also experiencing continued issues with them.

Unlike toilet paper, which breaks down quickly in water, wet wipes remain intact and tangle into massive clogs that jam pumps and blocks sewers. Even those labeled "flushable" should not be flushed.

If you must use wipes, put them in the trash, not the toilet. These same wipes may also be the culprit if you're having plumbing problems.
